NCAA Program

In line with its commitment to the development of Shooting Sports across the globe, Eley Ltd. is pleased to announce the introduction of a special program for the NCAA.

Consistent with Eley's support of USA Shooting and key NRA Advanced Programs, we have decided to make Eley's range of .22 premium competition cartridges more accessible to all shooting programs within the NCAA framework.

What's being offered?

The NCAA Rimfire program offers a rebate of 10% of like free merchandise based on the initial purchase made.

For Example:

College "A" buys 50,000 rounds of Eley Club and 10,000 rounds of Eley Tenex Ultimate EPS. The college then contacts Zanders Sporting Goods, and upon receipt of proof of purchase, Zanders will send out 5,000 rounds of Club and 1,000 rounds of Tenex Ultimate EPS free of charge.

Details:

A minimum order of 5,000 rounds is required to receive like free merchandise and Zanders Sporting Goods must receive proof of purchase within 30 days of purchase.

Schools wishing to participate in the program need only to take the following steps to qualify:

- i) Purchase Eley ammunition from an approved vendor. See attached page for a list.
- ii) Send a copy of their invoice to Zanders Sporting Goods, the exclusive importer of Eley ammunition.

We look forward to taking your order!
